## The Quarterly Journal of the Professional Gardeners' Guild

**THE PROFESSIONAL GARDENERS' GUILD** was formed in 1977 and is a society for Head Gardeners, Garden Managers, Assistant Gardeners, Botanists and Consultants. Its members are employed within private gardens and the gardens and estates of the Historic Houses Association, the National Trust, English Heritage and the Royal Palaces. They are responsible for some of the largest and most prestigious gardens and estates in the UK and Ireland.

**THE PROFESSIONAL GARDENERS' GUILD** is managed entirely by fellow professional gardeners and is funded solely by membership subscription. It remains the only organisation to cater for the professional interest of those employed in private sector horticulture. The Guild has the full support of

### Beating the Bulrush

**While you might think you've secured a quiet on the PPG Facebook page, it's not all that quiet. In fact, it's a hotbed of activity. The Professional Gardeners' Guild (PGG) is a vibrant community of gardeners who are passionate about their craft. It's a place where you can find inspiration, advice, and support. But it's also a place where you can find controversy. One of the most recent examples of this is the debate over the Bulrush Trust.**

With their fantastic Trust members and all the things they have done for the trust, it's not surprising that the trust has become a hotbed of activity. The trust has a long history of providing support and advice to its members. It's a place where you can find inspiration, advice, and support. But it's also a place where you can find controversy. One of the most recent examples of this is the debate over the Bulrush Trust.

### THE LOCKERBY TRUST

**Which bittercress?**

When you have been pulling weeds in your garden, you may have noticed a small plant with a yellow flower. This is a bittercress. Bittercress is a common weed in gardens and is often found in the same places as other weeds. It is a member of the Brassicaceae family and is closely related to other plants in the same family, such as cabbages and cauliflowers. Bittercress is a hardy plant that can survive in a wide range of conditions. It is often found in the same places as other weeds, such as in the cracks between paving stones or in the corners of flower beds. **Over the sea to Skye**

Recently, I was in Skye, Scotland, and I was very impressed by the beautiful views of the Skye Islands. The views were absolutely stunning and I was very lucky to see them. The Skye Islands are a beautiful part of Scotland and are well worth a visit. The views are absolutely stunning and I was very lucky to see them.
